Quality of life App

Progetto del corso di Javascript Advanced

Sviluppo di un'app che permetta di ottenere informazioni riguardo la qualità della vita delle città attraverso l'utilizzo del servizio esterno <u>Teleport</u>.

La città inserita dall'utente presa come esempio è **Los Angeles**.

Healthcare: 8.4396666666666666

Education: 8.6245

Environmental Quality: 4.7315000000000005

Economy: 6.5145

Taxation: 4.7675

Internet Access: 5.496500000000001

Leisure & Culture: 9.196

Outdoors: 6.747

Los Angeles is a sprawling city of 500 square miles and the heart of a metropolitan area with 18 million residents. It is a fabled California region, home to Hollywood and America's entertainment industry with year-round sunshine, world-famous beaches, and an intense car culture. The "City of Angels" is a magnet to people from around the world and a uniquely exciting environment.

Los Angeles is one of the top ten city matches for 11.5% of Teleport users.

City score: 63.43
